

# ETH Zurich Programming Challenge

**You have 6 hours to code a commander ruling over an army with the aim of conquering the world!**

The team with the best commander will win a **fully-paid trip to San Francisco in April 2016** and represent ETH Zurich at a California Hackathon against local teams.

**Monday, 1 February 2016, 16.00 - 23.00 h**  
**StuZ, CAB F 21**

**Requirements:** ETH Bachelor, Master or PhD student with programming skills in a high level language such as Python and Java, either in groups of 4 or as an individual.

**Deadline for registration: Sunday, 17 January 2016**

Registration is required: <http://bit.ly/ETH-hackathon>
